BJ's Wholesale Club

Deli Team Member
2020 - Present

Quickly fulfilling customer orders accurately while ensuring praiseworthy customer service that drives sales. Other responsibilities include maintaining inventory reports and ensuring strict adherence to health codes.

Food Lion

Customer Service Lead
2016 - 2020

Provided first-class customer service to all patrons and ensured fellow front-end associates adhered to company standards through continuous coaching. Other responsibilities included temporarily taking over a managerial role when needed and answering a moderate to high number of calls at the customer service desk.

Harris Teeter

Stock Crew
2015 - 2016

Received, unloaded, and broke down grocery trucks and stocked shelves efficiently. Occasionally filled in for the overnight supervisor to formulate plans that ensured stockers maintained company standards and all shelves were presentable for the next business day.

PixelPass

Python
Random secure-password generator built with TkInter. The application uses existing RGB data from lossless images in user libraries for password generation.

Sudoku Solver

JavaScript
Utilizes a recursive backtrack algorithm to solve sudoku grids.
